 - Won several national and state-level tennis tournaments in both doubles and singles categories, competing in the U-12, U-14, and U-16 divisions.
 - Secured multiple prizes in athletic events at annual school sports meets.
-

PROJECTS

Chessmates: Farcaster frame

Mar 2024

Developed chessmates, a team-based chess game where players vote on moves. The most popular choice determines the play, with points awarded for winning moves, all within a seamless Farcaster frame-based interface. The game won three prizes at the ETH Global Frames Hackathon.

tldrbot: Discord Bot to summarise conversations

Feb 2023

Developed tldrbot, a Discord bot capable of summarizing conversations through a simple command. The bot was recognized as "Product of the Day" on Product Hunt and achieved integration into over 100 servers within its first week of launch.

React and Next.js Snippets: VSCode Extension

Feb 2022

Developed a VSCode extension that enhances the development process by eliminating the repetitive task of writing boilerplate code for each file. The extension was recognized as "Product of the Day" on Product Hunt and currently serves over 24,000 users.
